

1. Support for Brazilian high-tech company

- Provision of Invest Japan Project for Brazilian high technology company emerging from local unique social challenges
- We are supporting 14 Brazilian technology companies answering individual questions and facilitating business matching. Local unicorn startup and health tech companies with fast-growing telemedicine technologies under the pandemic is one of our clients.

2. Support for Japanese Startup

- Only one Global Innovation Hub (Support base) in Latin America since June, 2020.
- We started support system for Japanese startups to offer mentoring, matching, briefing by expert with no charge and supported around 11 Japanese startups until now.

3. Support for Japanese company in Brazil

- We Set Innovation Study Group in the Japanese Chamber of Commerce and Industry in Brazil and offered latest information about Brazilian startup-ecosystem (We held 6 times study meetings last fiscal year)
- We held networking event in Japan House Sao Paulo between local ecosystem related key players and Japanese companies in Brazil November, 2019.
